Busting Visions (March 27, 2012) 4 Matt Collar Zeus deliver more of their rambling pop/rock with a slight country influence on their more 2012 album, Busting Visions. Once again centered around Broken Social Scene member Matt Collett, Zeus bring to mind a mix of the Beatles meet the Band-style folk-rock. To these end, the album's leadoff cut "Are You Gonna Waste My Time?," the T. Rex meet ELO number "Anytime," the epic Band-style ballad "Hello, Tender Love," the rustic midtempo singalong "Proud," and the languidly moving George Harrison moment "Cool Blue." Ultimately, Busting Visions is a thoughtfully constructed album full of backwoods, sandals, and sunburn rock with enough percussive bits to qualify as a kind of modern-day hippie noodle-rock opus.
